- English (Native)
- Spanish (Fluent)

PROFESSIONAL EXPERIENCE

Lead Backend Architect — CloudFin Systems 2021 - Present

- Architected high-throughput transaction routing gateway supporting 45,000 requests/sec.
- Reduced database query latency by 55% via multi-tier caching and distributed Redis cluster.
- Mentored junior engineers across four product teams, running weekly architecture reviews.

Senior Software Engineer — TechSphere Solutions 2018 - 2021

- Developed event-driven microservices processing over $850M in annual customer invoices.
- Optimized CI/CD deployment pipelines, cutting build verification times from 35m to 4m.
