ARJUN MEHTA

SOFTWARE ENGINEER | BACKEND SYSTEMS • CLOUD • API DEVELOPMENT

Hyderabad, India • arjun.mehta@example.com • +91 90000 23456 • linkedin.com/in/arjunmehta-demo

PROFESSIONAL SUMMARY

Software engineer with 3+ years of experience building reliable backend services and cloud-native applications. Strong in Python, API design, data modeling, automated testing, and performance troubleshooting.

EXPERIENCE

Software Engineer — 2024 – Present

CloudHarbor Labs (fictional) • Hyderabad, India

- Developed and maintained REST APIs serving internal workflows, adding validation and structured error handling to improve service reliability.
- Optimized database queries and introduced caching for high-traffic endpoints, cutting p95 response time by 32% in a controlled benchmark.
- Added automated unit and integration tests to CI, helping catch regressions before deployment.

Junior Backend Developer — 2022 – 2024

BrightLoop Technologies (fictional) • Chennai, India

- Implemented Python services and PostgreSQL schemas for a customer-support platform used by multiple teams.
- Containerized development environments with Docker and documented deployment steps for engineering handoffs.

EDUCATION

B.Tech., Computer Science and Engineering — 2018 – 2022

Deccan Institute of Technology (fictional)

PROJECTS

QueueWise — Built a task queue demo with retry handling, status tracking, and a lightweight monitoring endpoint.

SpendScope API — Designed an expense-tracking API with authentication, category summaries, and CSV export.

Core Skills: Python • FastAPI • PostgreSQL • Redis • Docker • AWS • Git • Pytest • REST APIs • Linux

CERTIFICATIONS

AWS Certified Cloud Practitioner (sample entry) • Python Programming Certificate (sample entry)
